## 1

### GETTING COMFORTABLE WITH FILEMAKER PRO

What Is a Database? .....	8
A Matter of Definitions .....	10
More Basic Database Elements .....	12
What Is FileMaker Pro? .....	13
A Complete Solution .....	13
Exploring FileMaker Pro .....	14
Launching FileMaker Pro .....	14
The FileMaker Pro Environment .....	16
Application Window .....	16
Database Window .....	17
Status Area .....	18
Menu Bar .....	18
Standard Toolbar .....	18
Mode Pop-Up Menu .....	18
Status Area Control .....	18
Zoom Controls .....	19
Layout Drop-Down Menu .....	19
Book and Bookmark .....	19
Counts .....	19
Sort Status .....	19
Status Bar .....	20
Setting Preferences .....	20
Application Preferences — General .....	20
Application Preferences — Layout .....	22
Application Preferences — Memory .....	23
Application Preferences — Modem .....	25
Application Preferences — Dialing .....	26
Document Preferences .....	29
Document Preferences — General .....	30
Document Preferences — Spelling .....	31

The Window and Help Menus .....	32
The Window Menu .....	32
The Help Menu .....	34
The Last Word .....	37

## 2

### YOUR FIRST DATABASE

Case Study: Chris's Corner Computer Shop .....	40
Background .....	40
The Problem .....	40
The Solution .....	41
Create Your First Database .....	41
Launch FileMaker Pro .....	41
Create a New Database Called Company.fp5 .....	41
Closing a Database .....	42
Closing/Quitting FileMaker Pro .....	42
Defining Fields .....	42
Text Fields .....	43
Create the CompanyName Field .....	43
Validation Options .....	44
Strict Data Type .....	45
Not Empty .....	45
Unique .....	45
Existing .....	45
Member of Value List .....	45
In Range .....	46
Validated by Calculation .....	46
Maximum Number of Characters .....	47
Strict: Do Not Allow User to Override Data Validation .....	47
Display Custom Message if Validation Fails .....	47
Create the Rest of Company.fp5's Text Fields .....	48
Number Fields .....	48
Auto-Enter Options .....	50
Creation/Modification Date, Time, or Name .....	50
Serial Number .....	50
Value from Previous Record .....	50
Data .....	51
Calculated Value .....	51
Looked-up Value .....	51
Prohibit Modification of Value .....	51
Storage Options .....	52
Repeating Fields .....	54
Date Fields .....	54
Create the CreationDate Field .....	55
Time Fields .....	55
Create the CreationTime Field .....	55

Container Fields .....	55
Create the Logo Field .....	56
Calculation Fields .....	56
Create the cConstant Field .....	57
Global Fields.....	57
Create the gComputerShopName Field .....	58
Summary Fields .....	58
Create the sCustomers Field .....	59
Total Of.....	59
Average Of.....	60
Count Of .....	60
Minimum Of.....	60
Maximum Of.....	60
Standard Deviation Of .....	60
Fraction of Total Of.....	61
Define Fields Features.....	61
Field Count .....	62
Field Name Column .....	62
Field Type Column .....	62
Options Column .....	62
"View by" Drop-Down Menu .....	63
Sort Toggle .....	63
Reorder Arrows .....	63
Field Name Box .....	63
Field Type Area.....	63
Button Area.....	63
Your First Layout .....	65
Create More Records .....	66
Find a Record.....	66
Layout Mode .....	67
Preview Mode .....	67
ScriptMaker .....	68
Save a Copy of Your Database .....	70
Copy of Current File.....	70
Compressed Copy (Smaller) .....	70
Clone (No Records) .....	70
The Last Word.....	70

### 3

## BUILDING LAYOUTS

What Is a Layout?.....	74
Create Your First Layout: A Detail View .....	75
Create Your Own Themes .....	78
Layout Parts.....	78
Adding Layout Parts .....	79
Deleting Layout Parts .....	79

Modifying Layout Parts .....	79
Part Definition Dialog .....	82
Create a List View .....	83
List View Tips .....	86
Mailing Labels .....	87
Merge Fields .....	88
Envelopes .....	90
Table View .....	90
Layout Setup .....	91
Summary Reports .....	94
Companies by City Summary Report .....	95
From the Field: All Fields Layouts .....	97
From the Field: Blank/Divider Layouts .....	99
Layout Objects .....	99
Your Layout Tools .....	100
Text Blocks .....	100
Replicating Objects .....	103
Replicating Object Formats .....	104
Fields .....	104
Adding a Field .....	105
Styles and Object Effects .....	105
Field Borders .....	107
Field Format .....	108
Value Lists .....	108
Creating the State Field Value List .....	109
Related Value Value Lists .....	111
Value Lists from Other Databases .....	112
Lines (Not Visible in Figure 3-1) .....	112
Rectangles, Rounded Rectangles, and Ovals .....	112
Pictures .....	113
Where to Get Great FileMaker Icons .....	113
Portals .....	114
Adding a Portal .....	114
Styles and Object Effects .....	114
Some Design Tips .....	114
Adding a Related Field to a Portal .....	115
Sorting a Portal .....	115
Buttons .....	115
Adding a Button .....	116
Making Another Layout Object a Button .....	116
Styles and Object Effects .....	117
OLE Objects — Windows Only .....	117
Adding an Object .....	117
Updating Object Links .....	118
Sliding and Printing .....	118
Sliding Tips .....	120
Layout Menu .....	121
New Layout/Report .....	121
Duplicate Layout .....	121

Delete Layout .....	121
Layout Setup .....	121
Part Setup .....	122
Set Layout Order .....	122
Set Tab Order .....	122
Set Rulers.....	123
View Menu .....	123
Page Margins.....	123
Graphic Rulers .....	124
Text Ruler.....	124
Ruler Lines.....	124
T-Squares.....	124
Object Size.....	124
Show .....	125
The Arrange Menu.....	125
Group .....	125
Ungroup.....	126
Lock .....	126
Unlock.....	126
Bring to Front, Bring Forward, Send to Back, Send Backward .....	126
Rotate.....	126
Align.....	126
Set Alignment.....	127
Object Grids .....	127
The Last Word.....	127

## 4

### RECORDS AND DATA

Exploring Browse Mode .....	129
Working with Records .....	130
Adding a Record .....	130
Duplicating a Record.....	131
Deleting a Record .....	131
From the Field: Navigate Records and Fields Using Your Voice! .....	132
Creating, Duplicating, and Deleting Related Records in a Portal .....	132
Creating Related Records in a Portal .....	132
Duplicating Related Records in a Portal .....	133
Deleting Related Records in a Portal.....	133
Copying Records .....	133
Copying Data in Portals.....	134
Contextual Menus .....	134
Working with Fields .....	134
Entering Text Data .....	134
Formatting Text Data .....	137
Text Formats.....	137
Paragraph Formats .....	137

Setting Tabs .....	138
Setting Margins and Tab Stops with the Text Ruler .....	139
Other Format Menu Commands .....	139
Entering Graphics, Sounds, QuickTime/Movies, or OLE Objects into Container Fields ...	140
Insert Movie – Mac Only .....	140
Insert Picture .....	140
Insert QuickTime – Windows Only .....	140
Insert Object – Windows Only .....	141
Replacing Data .....	141
Try It Out .....	141
Some Notes About Replacing .....	142
Finding and Replacing Data .....	142
Relookup Data .....	143
Finding Data .....	144
Exploring Find Mode .....	144
Using Find Symbols .....	144
Tips for Using Find Symbols .....	147
Multiple Find Requests .....	147
Using Omit .....	147
Other Requests Menu Commands .....	147
Modifying Last Find .....	148
From the Field: Finds Without Find Mode .....	148
Sorting Data .....	149
The Sort Records Dialog .....	149
Sorting by Subsummary Fields .....	150
Common Sorting Problems .....	150
Spell-Checking Data .....	151
Importing and Exporting Data .....	151
Importing Data from a File .....	152
Importing Data from a Folder .....	155
Importing Images from a Digital Camera – Mac OS X Only .....	156
Importing Excel .....	157
Other File Formats .....	157
Importing XML .....	158
What About Importing Via ODBC? .....	158
Drag and Drop Imports/Conversions .....	158
Exporting Data .....	159
Previewing and Printing Data .....	160
Exploring Preview Mode .....	160
Print/Page Setup .....	160
Print Dialog .....	161
From the Field: Copying Preview into a Field .....	162
The Last Word .....	162

## 5

### DEVELOPING RELATIONAL DATABASES

A Database of Your Friends .....	164
Alternatives to a Relational Database .....	164
Disadvantages of Scenario 1 .....	166
Disadvantages of Scenario 2 .....	166
The Solution: Scenario 3 .....	166
The Relationship Between Databases .....	167
Primary Keys .....	168
Foreign Keys .....	168
Invoice Database Systems .....	169
Relationship Setup .....	170
When deleting a record in this file, also delete related records.....	171
Allow creation of related records .....	171
Sort related records.....	172
Portal Setup Basics .....	172
Portal Setup Dialog .....	173
When You Don't Need a Portal .....	174
Lookups vs. Related Data .....	174
Setting Up Lookups .....	175
From the Field: Advanced Portal Techniques.....	177
Many-to-Many Relationship .....	177
Rising Action .....	177
The One-to-Many Relationship .....	178
The Solution .....	178
Setting Up a Join Database .....	178
The Climax .....	181
Dénouement.....	182
Epilogue (Summing Up) .....	183
Stacking Portal Fields .....	184
Duping a Record With All Its Related Portal Records Intact.....	184
Sorting a Portal at the Click of a Mouse – Without a Million Layouts .....	185
The Hidden Portal Technique .....	185
A List View That's Actually a Portal.....	186
Highlighting Current Record in a List View Portal .....	187
Use a Multikey Portal to Quickly Add Items to a Related Database.....	187
Setting It Up .....	187
Use Smart Scripting to Easily Add Items to an Order Without Using the Keyboard .....	189
Setting It Up .....	189
Stacking Portal Fields Redux.....	190
Setting It Up .....	190
Select a Portal Row to Data-Enter a Line Item .....	191
Setting It Up .....	191
Rotating a Portal .....	192
Other Cool Portal Tricks.....	193

The “Viewer Database” Development Method .....	193
The Hierarchical Portal .....	193
Planning a Relational Database System .....	194
The Last Word .....	194

## 6

### HARNESSING THE POWER OF COMPLEX CALCULATIONS

What Are Calculations? .....	195
The Calculation Dialog Box .....	196
Storage Options .....	197
The Field List .....	198
The Operator Buttons .....	198
The Function List .....	198
Calculations Explained .....	198
Expressions .....	198
Operators .....	199
Operator Order .....	201
Constants .....	203
Field References .....	203
Some Simple Calculations .....	204
Functions .....	205
Text Functions .....	207
Exact(original text, comparison text), Exact(original container field, comparison container field) .....	207
Left(text, number) .....	209
LeftWords(text, number of words) .....	210
Length(text) .....	210
Lower(text) .....	210
Middle(text, start, size) .....	211
MiddleWords(text, starting word, number of words) .....	211
PatternCount(text, search string) .....	211
Position(text, search string, start, occurrence) .....	213
Proper(text) .....	214
Replace(text, start, size, replacement text) .....	215
Right(text, number) .....	216
RightWords(text, number of words) .....	216
Substitute(text, search string, replace string) .....	217
TextToDate(text) .....	218
TextToNum(text) .....	219
TextToTime(text) .....	219
Trim(text) .....	219
Upper(text) .....	219
WordCount(text) .....	220
Number Functions .....	220
Abs(number) .....	220
Exp(number) .....	220

Int(number).....	221
Mod(number, divisor).....	221
NumToText(number).....	222
Random.....	222
Round(number, precision).....	223
Sign(number).....	225
Sqrt(number).....	225
Truncate(number, precision).....	225
Date Functions.....	226
Date(month, day, year).....	226
DateToText(date).....	226
Day(date).....	226
DayName(date).....	227
DayofWeek(date).....	227
DayofYear(date).....	227
Month(date).....	227
MonthName(date).....	227
Today.....	227
WeekofYear(date).....	228
WeekofYearFiscal(date, starting day).....	228
Year(date).....	228
Time Functions.....	228
Hour(time).....	228
Minute(time).....	229
Seconds(time).....	229
Time(hours, minutes, seconds).....	229
TimeToText(time).....	229
Aggregate Functions.....	229
Average(field . . . ).....	230
Count(field . . . ).....	230
Max(field . . . ).....	230
Min(field . . . ).....	231
StDev(field . . . ).....	231
StDevP(field . . . ).....	231
Sum(field . . . ).....	231
Summary Functions.....	232
GetSummary(summary field, break field).....	232
Repeating Functions.....	233
Extend(non-repeating field).....	233
GetRepetition(repeating field, number).....	234
Last(repeating field).....	234
Financial Functions.....	234
FV(payment, interest rate, periods).....	235
NPV(payment, interest rate).....	235
PMT(principal, interest rate, term).....	235
PV(payment, interest rate, periods).....	235
Trigonometric Functions.....	236
Atan(number).....	236
Cos(number).....	236

Degrees(number) .....	237
Ln(number).....	237
Log(number).....	237
PI .....	238
Radians(number) .....	238
Sin(number) .....	238
Tan(number) .....	238
Logical Functions .....	239
Case(test1, result1 [, test2, result2, default result] . . . ) .....	239
Choose(test, result0 [, result1, result2] . . . ) .....	241
GetField(field) .....	241
IsEmpty(field) .....	243
IsValid(field).....	243

### SECURING YOUR FILEMAKER PRO DATABASES

How Much Security Do You Need? .....	360
Your Security Plan .....	361
Physical Security .....	361
Database System Security .....	362
Audit Log .....	362
Backing Up .....	362
Regular Review .....	363
Emergency Plan .....	363
Known Risks .....	363
User Training .....	363
FileMaker Pro Security .....	363
Additional Security .....	363
FileMaker Pro's Security Features .....	364
Setting Up Passwords .....	364
General Password Notes .....	368
Record-Level Security .....	368
Setting Up Groups .....	369
Setting Up Access Privileges .....	370
From the Field: Darn Good Security System .....	371
Case Study: Matter, Inc. ....	372
Setup .....	372
FileMaker Server Setup .....	372
Launcher Databases .....	373
Opening Sequence .....	374
Logon Scripts .....	374
Other Initial Scripts .....	375
Password Encryption .....	375
What Does the SecureFM Plug-in Do? .....	375
Main Menu .....	376
System Administration .....	377
Security Administration .....	377
Data Entry Areas .....	378
Record Verification Process .....	379
Unlocking a Record .....	379
Testing Other Data Entry Areas .....	379
Other Security Features .....	380
Other Security Measures You Can Take .....	381
Use Record-Level Security .....	381
Use Access Groups .....	381
Global Fields On Edit Layouts .....	381
Encrypt FileMaker Passwords .....	382
Taking Away Structure and Other FileMaker Developer Stuff .....	382
Change Database Passwords Often .....	382
Use Opening and Closing Scripts .....	383
Understand Multi-User Database Design Techniques .....	383

Turn User Abort Off .....	383
Use Custom Dialogs For Password Entry .....	383
Don't Index Any Fields in the User Database .....	383
Get Expert Advice .....	383
Be Aware of Emerging Technologies .....	384
Other Security Software Tools and Add-Ons .....	384
Dialog Magic .....	384
Login Magic .....	384
Password Administrator .....	384
