UBUNTU 12.04

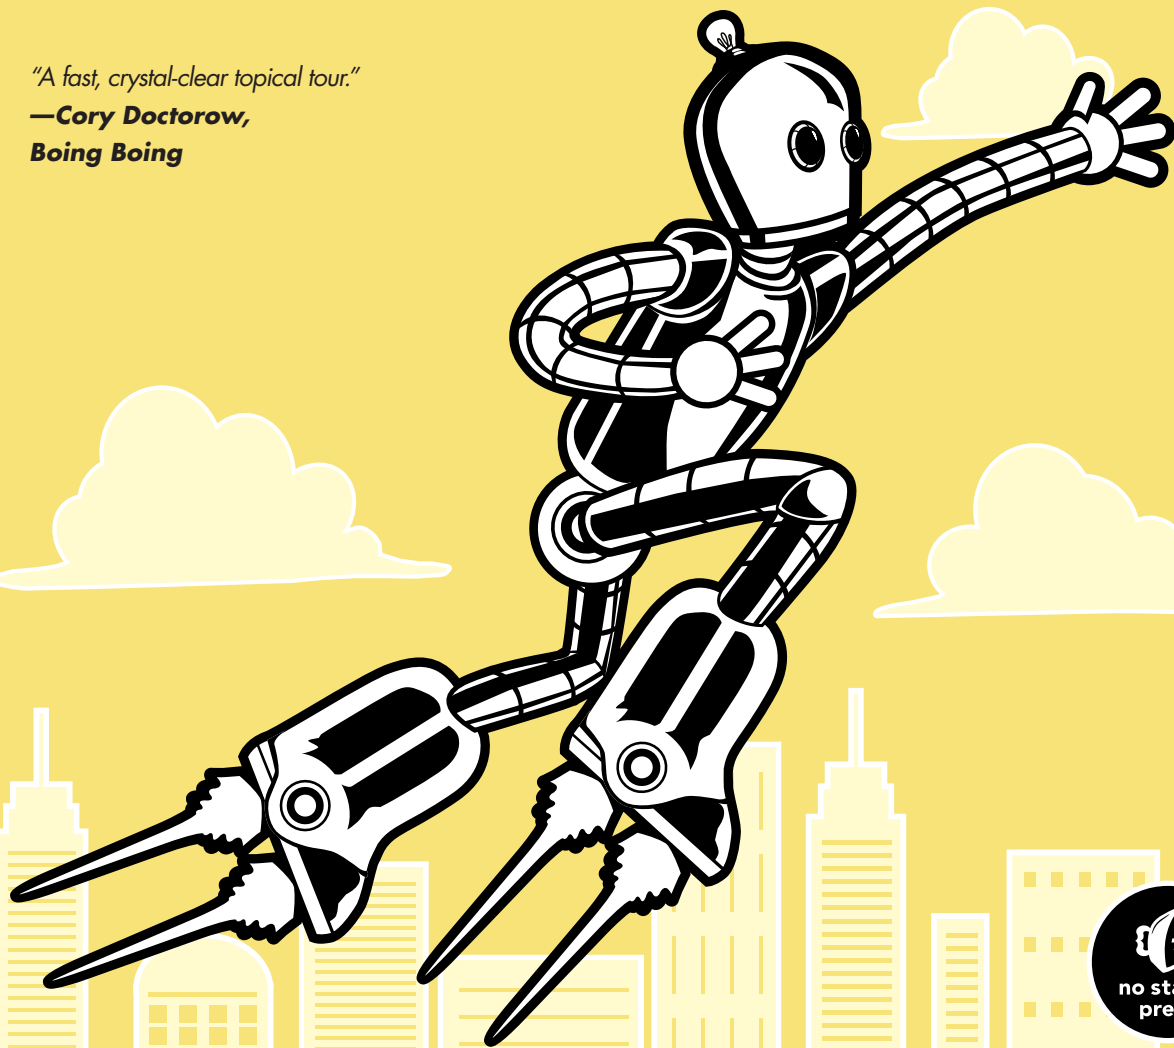

UBUNTU MADE EASY

A PROJECT-BASED
INTRODUCTION TO LINUX

RICKFORD GRANT WITH PHIL BULL

"A fast, crystal-clear topical tour."

—Cory Doctorow,
Boing Boing

INDEX

Symbols and Numbers

- * (asterisk), use as wildcard character, 145
- / (root), 105
- 2D mode, 38
- 3D games, 293–302
- 3D modeling, Blender for, 244
- 3G/4G mobile broadband cards, 52–54
- 802.11a/b/g/n. *See* wireless connection

A

- AAC files, playing locked, 274
- AbiWord, 222
- accented characters, typing, 201, 205
- access point. *See* wireless access point (WAP)
- accounts, logging into user
 - accounts, 161
- address book, Dlume, 223
- Adobe Photoshop, 329
- Advanced Package Tool (APT). *See* APT (Advanced Package Tool)
- adware, 3
- AIFF file format, 246
- AIM. *See* instant messaging
- AMD64 processor, Ubuntu CD for, 407, 409
- amplifier presets, changing with
 - PLUG, 259
- Android-based devices
 - copying files to hard drive from, 270
 - ejecting, 267
 - managing audio files on, with
 - Rhythmbox, 269
 - running Linux on, 274
 - working with, 266
 - 3.0+ “Honeycomb” devices, 267
- animation, Blender for, 244
- anti-aliasing, 293
- antivirus software, 340–345
- applications. *See also* software; installing
 - applications
 - for children, 315–317
 - compiling from source, 151–156
 - educational, 313
 - finding the command for, 355
 - installing with apt-get, 136
 - Internet, 55
 - personal health, 311
 - restarting for new font display, 191
 - switching between running, 36
- APT (Advanced Package Tool)
 - adding software repository, 88
 - APT-URL, 90
 - graphical frontends for, 78
 - line, 88
- apt-get command, 136
 - Easter eggs in, 136
 - installing packages with, 136
- archives. *See* compressed files
- Ardour, 258
- Asian language input
 - Chinese, 205
 - Japanese, 205–206
 - Korean, 206–207
 - typing with IBus, 207–208
- Ask Ubuntu, 363
- ATOM, 61
- Audacity, 257
- audio. *See also* sound
 - Audio menu on desktop panel, 28
 - CDs, creating, 254
 - converting file formats, 272
 - EasyTag, 257
 - Ex Falso, 257
 - file formats, 246–247
 - installing MP3 file support, 247

- audio, *continued*
 - Movie Player for playing, 278, 279
 - Streamtuner2, 256
- audio players
 - alternatives to Rhythmbox, 255
 - Rhythmbox, 248
- AU file format, 246
- authentication, of packages, 88
- auto-update of iPod/iPhone, disabling, 265–266
- Avidemux, 287
- B**
 - backdoors, 3
 - backgrounds
 - desktop, 164
 - for Terminal, 156–157
 - backports, 360
 - backups
 - backing up files, 120–122
 - before Ubuntu install, 18
 - Bash (Bourne Again Shell), 138
 - batch photo conversions, 240
 - /bin* folder, 105
 - BIOS, accessing, 12, 405
 - bitmap graphics creation
 - GIMP, 238–240
 - paint programs, 238–242
 - BleachBit privacy guard, 349
 - blogs
 - creating, 66
 - web resources for, 421
 - Bluetooth, 117
 - enabling file transfer, on Windows and Mac OS, 118
 - making device discoverable, 117
 - PIN, 117
 - sending and receiving files, 118
 - Boing Boing (website), 61
 - Bombono DVD, 287
 - bookmarks, 57, 104
 - on network share, 107
 - books, in Ubuntu Software Center, 83
 - BookWrite, 89
 - booting
 - boot loader, GRUB, 17
 - boot order
 - changing, 326
 - checking, 374
 - boot timeout, changing, 326
 - checking the disc, 374
 - downloading the CD image, 375
 - GRUB errors, 378
 - from live CD, 12–13
 - problems, 374, 377
 - from USB flash drive, 403
 - using a different kernel version, 87
 - using kernel options, 375
 - into Windows (*see* dual-boot systems)
 - Bourne Again Shell (Bash), 138
 - Brasero. *See* burning CDs/DVDs
 - breadcrumbs, 102
 - Breezy Badger, 8
 - Brewtarget, 319
 - Briscola, 147–151
 - broadband. *See* Internet connections
 - browser. *See* Firefox web browser
 - bugs, 354–361
 - identifying, 354–355
 - marking that they affect you, 357
 - overview of bug report, 358
 - problems that aren't bugs, 355
 - reporting, 355–356
 - status, 360
 - time taken to fix, 359–360
 - updated packages, 360
 - burning CDs/DVDs, 111–112
 - with Brasero, 114
 - burning audio CDs, 254–255
 - burning multisession CDs, 114
 - CD-RW discs, 113
 - ISO images to CD, 113, 408
 - in Mac OS X, 408
 - .bz2 file extension, 141
 - .bz file extension, 141
- C**
 - cable. *See* Internet connection
 - Calc (LibreOffice), 215. *See also* LibreOffice office suite
 - calendar command, 130
 - Canonical store, 369
 - capturing and editing digital video, Kino for, 282–284
 - CD
 - for AMD64 users, 407
 - burning (*see* burning CDs/DVDs)
 - ejecting, 110
 - included with book, 1
 - compatibility with 64-bit systems, 8
 - for Intel Core 2 users, 407
 - ripping (*see* Rhythmbox: ripping CDs)
 - cd command, 131
 - cell phones, 268

- character encoding, for web pages, 200
- characters, typing nonstandard, 201–205
 - with Character Map utility, 201
- chat. *See* instant messaging
- Chinese language input, 205–207
- chmod command, 133–134
- clip art, adding to LibreOffice, 220
- codec, 385
- coffee beans, Ubuntu forum, 363
- command line, 125–126. *See also* Terminal
- commands
 - apt-get, 136
 - calendar, 130
 - case sensitivity of, 128
 - cd, 131
 - chmod, 133–134
 - cp, 132
 - df, 129
 - exit, 130
 - finding, for an application, 355
 - finger, 137
 - gunzip, 141
 - gzip, 141
 - ln, 139
 - locate, 135
 - ls, 130
 - mkdir, 130–131
 - mv, 131
 - pwd, 129
 - rm, 132
 - rmdir, 132–133
 - sudo, 135
 - tar, 139–140
 - touch, 131
 - updatedb, 135
 - use of flags with, 129
 - whoami, 128
- commercial software, 351
- community, Ubuntu, 351, 368
- compiling programs, 151–156
- Compiz, 172–174
 - problems running, 392
- compose key, 202
- compressed files, 123
 - tar command to create, 139–140
 - .zip files, 123
- computer name, 21
- ./configure command, 152
- cookies, 350
- Could not get lock, error message, 397
- cp command, 132

- CPU, identifying, 6
- crashes, 354, 399
- cut-and-paste, for moving files, 102

D

- daemon, 207
- Dapper Drake, 8
- Dash, 29, 31–34
 - filters, 33
 - finding files, 96
 - lenses, 31
 - music lens, 98
 - opening files, 96
 - search, 96
 - video lens, 99
- Debian distribution, 5
- DEB packages, 78. *See also* packages
- deleting a file, 122
 - securely, by shredding, 348
 - troubleshooting, 396
- dependency hell, 78
- desktop environment, 26–29. *See also* Unity
 - adding utility buttons, 36
 - changing background, 162
 - changing to GNOME Classic, 175
 - changing to GNOME Shell, 175
 - changing with MyUnity, 168
 - creating folders on, 29
 - customization, 162, 167
 - icons, stretching, 164
 - installing Mint, 177
 - Quit button, 40
 - switching between, 176
 - top panel, 27
- Desktop folder, 100
- developers, 352
- df command, 129
- DHCP (Dynamic Host Configuration Protocol), 43
- dial-up Internet connection 50–51. *See also* Internet connections
- digital cameras, 230–232
 - connecting to computer, 230
 - importing images from, 230, 271
 - video camera, 282–284
- digital media devices, 264–271
 - copying files to hard drive, 270
 - file format compatibility, 264
 - iPod/iPhone/iPad, 264
 - managing audio files on, 269
 - safely removing, 271

- directory tree, `pwd` command for current location in, 129
 - disk
 - full, 394
 - partitioning, 411–418
 - safely removing, 116
 - Windows partition, 322
 - Disk Usage Analyzer, 123
 - display
 - blank screen, 394
 - resolution, problems with, 393
 - troubleshooting, 392
 - distributions (distros), 4
 - Dlume, 223
 - DNS (Domain Name Service), 45
 - dongle, 53
 - dots per inch (dpi), 196
 - downloading
 - Downloads* folder, 96
 - software, and installing, 77
 - Ubuntu Desktop CD ISOs, 407, 409
 - dpi (dots per inch), 196
 - `dpkg` error, 397
 - drag-and-drop, for moving files, 102
 - Draw (LibreOffice), 217. *See also* LibreOffice office suite
 - drawing programs, vs. paint programs, 242
 - drivers
 - disabling, to fix problems, 378
 - for graphics cards, 392–393
 - installing, for wireless, 388
 - for printers, 185
 - for wireless cards, 387
 - dual-boot systems. *See also* booting
 - accessing Windows disk partition, 322
 - boot order, changing, 326
 - explanation of, 17
 - resizing Windows partition, 20
 - restarting into Windows, 23
 - timeout, changing, 326
 - dummy files
 - creating in Nautilus, 123
 - creating with the `touch` command, 131
 - DVD, 276
 - drive, regional encoding lock, 277
 - dual layer, applications for ripping, 287
 - duplicating, 115
 - Movie Player for playing, 278
 - playing encrypted, 276
 - ripping, 287
 - DVD Styler, 287
 - Dynamic Host Configuration Protocol (DHCP), 43
- ## E
- Easter eggs, 136
 - `ecryptfs-utils`, 346
 - Edgy Eft, 8
 - Edubuntu, 9
 - ejecting CD/DVD, 110
 - email, 67–69
 - sending images by, 235
 - Empathy chat client, 70–72. *See also* instant messaging
 - encrypted DVDs, 276
 - encryption
 - of Home folder, during installation, 22
 - recovering encrypted files, 347
 - error messages
 - as bugs, 354
 - Cannot mount volume, 323
 - Unable to find service record, 118
 - /etc* folder, 106
 - Ethernet, 43
 - Ewing, Larry, 3
 - Examples* folder, 100
 - Exchange (email server), 68
 - executable files, path for, 146
 - `exit` command, 130
 - ext filesystem, 324, 412
- ## F
- fallback mode, 38
 - FAT32 filesystem, 412
 - favorite web pages, saving as bookmarks, 57
 - Feisty Fawn, 8
 - file formats
 - audio, 247
 - using GIMP to convert, 239
 - file manager. *See* Nautilus (file manager)
 - files
 - backing up, 120–122
 - changing permissions of, with the `chmod` command, 133
 - compatibility of LibreOffice with Microsoft Office, 217
 - compressed, 123
 - `tar` command to create, 139–140
 - .zip* files, 123

- copying, 102
 - with the `cp` command, 132
 - deleting, 122, 396
 - with the `rm` command, 132
 - encryption of, 345
 - executable, path for, 146
 - finding with the `locate`
 - command, 135
 - hidden, displaying, 142
 - linking, 139, 150
 - moving, 102
 - with the `mv` command, 131
 - naming, characters to avoid, 112
 - opening with the Dash, 96
 - permissions
 - changing from within the Terminal, 133–134
 - changing in Nautilus, 108–110
 - numeric representations
 - explained, 133
 - problems with, 396
 - textual representation
 - explained, 134
 - recently used, 96
 - recovering lost, 401
 - searching for, 96
 - sending with Bluetooth, 118
 - shortcuts, 139
 - shredding, 348
 - filesystems, 324, 412
 - filters, 33, 97–98
 - finding apps, and running, from the keyboard, 34
 - finger command, 137
 - Firefox web browser, 55–67
 - add-ons, 65
 - Awesome Bar, 59
 - bookmarks (favorites), 57
 - character encoding changes, 200
 - erasing personal information, 349
 - extensions, 62
 - history, 59
 - live bookmarks, 61
 - plug-ins, 62–65
 - popup windows, 62
 - Private Browsing, 60
 - problems with, 399
 - RSS feeds, 61
 - tab feature, 56
 - Firestarter, 341
 - firewall
 - in router, 341
 - software for, 344
 - FLAC (Free Lossless Audio Codec), 246
 - flags, for commands, 129
 - flash drive, 116
 - installing Ubuntu from, 403
 - Flash plug-in, 62
 - FocusWriter, 222
 - folders, 106
 - bookmarking, 104
 - changing permissions for, with the `chmod` command, 133–134
 - copying, 102
 - with the `cp` command, 132
 - creating, and renaming, 101
 - with the `mkdir` command, 130
 - deleting with the `rmdir`
 - command, 132
 - listing current contents in Terminal, 130
 - moving, 102
 - with the `mv` command, 131
 - navigating, in Nautilus, 104
 - shared, on a network, 336
 - fonts
 - changing system display fonts with MyUnity, 170
 - folder, 192
 - free, 190
 - installing, 190–192
 - from Windows, 325
 - TrueType, 190
 - foreign DVDs, 276
 - foreign languages. *See* language capabilities
 - forums. *See* Ubuntu Forums
 - F-PROT, 344
 - Freedoom, 294
 - Free Lossless Audio Codec (FLAC), 246
 - FreeMind, 226
 - Freenode, 366
 - freezing, as bug, 354
 - Frets on Fire, 298
 - Frozen Bubble, 291
- ## G
- games, 289
 - 3D, 293
 - card
 - AisleRiot Solitaire, 289
 - Blackjack, 291
 - Briscola, 148
 - Chess, 291

- games, *continued*
 - commercial, 300
 - Braid, 302
 - Doom III, 301
 - Enemy Territory, 301
 - Gish, 301
 - Humble Bundles, 301
 - lists of games, 301
 - Lugaru, 301
 - from Ubuntu Software Center, 302
 - Unreal Tournament, 301
 - World of Goo, 302
 - Crayon Physics, 332
 - gbrainy, 289
 - GNOME, 290–292
 - installing, 290
 - Java-based, 302–305
 - karaoke (Performous), 298
 - Linux-themed
 - Extreme Tux Racer, 291
 - Frozen Bubble, 291
 - Pingus, 291
 - Mahjongg, 289
 - Mines, 289
 - online, 305
 - other sources, 305
 - PlayDeb, 300
 - problems running, 392
 - puzzle
 - Five or More, 291
 - Iagno, 290
 - Klotski, 290
 - Robots, 291
 - Same GNOME, 290
 - Tetravex, 290
 - pyWings, 144
 - Quadrassel, 289
 - Schapsen, 303
 - shooters
 - Freedoom, 294
 - Nexuiz, 294
 - Tremulous, 294
 - simulators
 - FlightGear, 298
 - Frets on Fire, 298

 - Transport Tycoon (OpenTTD), 297
 - strategy
 - Hedgewars, 296
 - Warzone, 2100, 296
 - Sudoku, 289
 - Turbo Tanks, 65
 - Turtle Arena, 90
 - Windows
 - Call of Duty, 302
 - Guild Wars, 302
 - Spore, 302
- GB (gigabyte), 412
- geotagging, 72
- GetDeb, 88
- gigabyte (GB), 412
- GIMP, 238–240
- gksudo command, 193
- gLabels, 224
- global menu, 27–28
- GNOME Classic desktop, 175–177
- GNOME PPP, 50
- GNOME Shell, 175
- Google Earth, 92–93
- Google search, in Firefox, 56
- GPG key
 - for GetDeb, 88
 - unauthenticated packages, 397
- Gramps, genealogical research with, 319
- graphical user interface (GUI), 2
- graphics
 - 3D graphics, 392
 - Blender for, 244
 - GIMP, 238–240
 - Inkscape, 242–243
 - inserting in LibreOffice document, 219
 - mypaint, 242
 - Phatch, 240
 - Shotwell, 230
 - troubleshooting, 392
 - Tux Paint, 316
- graphics cards, 392–393
 - ATI/AMD cards, 392
 - drivers for, 392–393
 - identifying, 6
 - nVidia cards, 393
 - troubleshooting, 38, 392–394
- GRUB (GRand Unified Bootloader), 17.
 - See also* booting
 - customizing, 327
 - errors, 378
 - menu, 87

- gThumb image viewer, 243, 244
- GUI (graphical user interface), 2
- gunzip command, 141
- Gutsy Gibbon, 8
- Gwibber social networking client, 73
- .gz file extension, 140
- gzip command, 140–141

H

- hamster-applet, time management application, 90
- hanging indent, LibreOffice, 221
- hangul, 206
- hanja, 206
- hanzi, 205
- hard disk drives
 - external, 116
 - formatting, 414
 - full, 394
 - information on size and available space with `df` command, 129
 - Linux minimum requirements, 7
 - partitioning
 - definition, 21
 - house analogy, 21
 - resizing, 20, 411
 - types of, 414–415
- hardware
 - acceleration, checking for, 293
 - bugs, 355
 - checking that your wireless card is recognized, 387
 - compatibility issues, 6, 421
 - drivers, installing, 39, 388
 - minimum requirements, for
 - Ubuntu, 7, 8
 - modems, cable or ADSL, 49
 - modems, dial-up, 50
 - printers, 180
 - scanners, 193
 - software for checking, 82
 - for wireless Internet connection, 45, 46
- Hardy Heron, 8
- head-up display, 34–35
- help
 - asking for, on Ask Ubuntu, 363
 - asking for, on IRC, 364
 - asking for, on mailing lists, 368
 - from Ubuntu Forums, 361
- hiberfil.sys*, 381

- hibernating
 - role of the swap partition in, 415
 - Windows, problems with, 323, 381
- hidden files, 142
- high-level programming languages, 151
- hiragana, 205
- Hoary Hedgehog, 8
- HomeBank finance software, 310
- Home folder, 99, 105
 - encrypting, 22
- home partition, 415
 - creating a separate partition for, 411–416
- Hopper, Grace, 354
- Humanity theme, 171
- HWiNFO, getting motherboard information with, 6
- Hydrogen, digital drum machine, 260

I

- IBus (Intelligent Input Bus), 207
